PAGE 1 / 1

We have updated our itemization of the Patriot Day I PAC donations. However, our net (not gross) totals remain the same. If there is a discrepancy with that amount it is not on our end.

Also, our filing software did not accuratley switch over to the 2014 primary season last year so the Column B for the year end report was wrong. When I filed an amendment in February it was the corrected version (previously it was still pulling from the 2012 elections). The amendment filed early 2014 is the correct column amount which is why they did not add up.
